

Where in Space Is My Friend???

2

Generated by a program written by Jim Kang

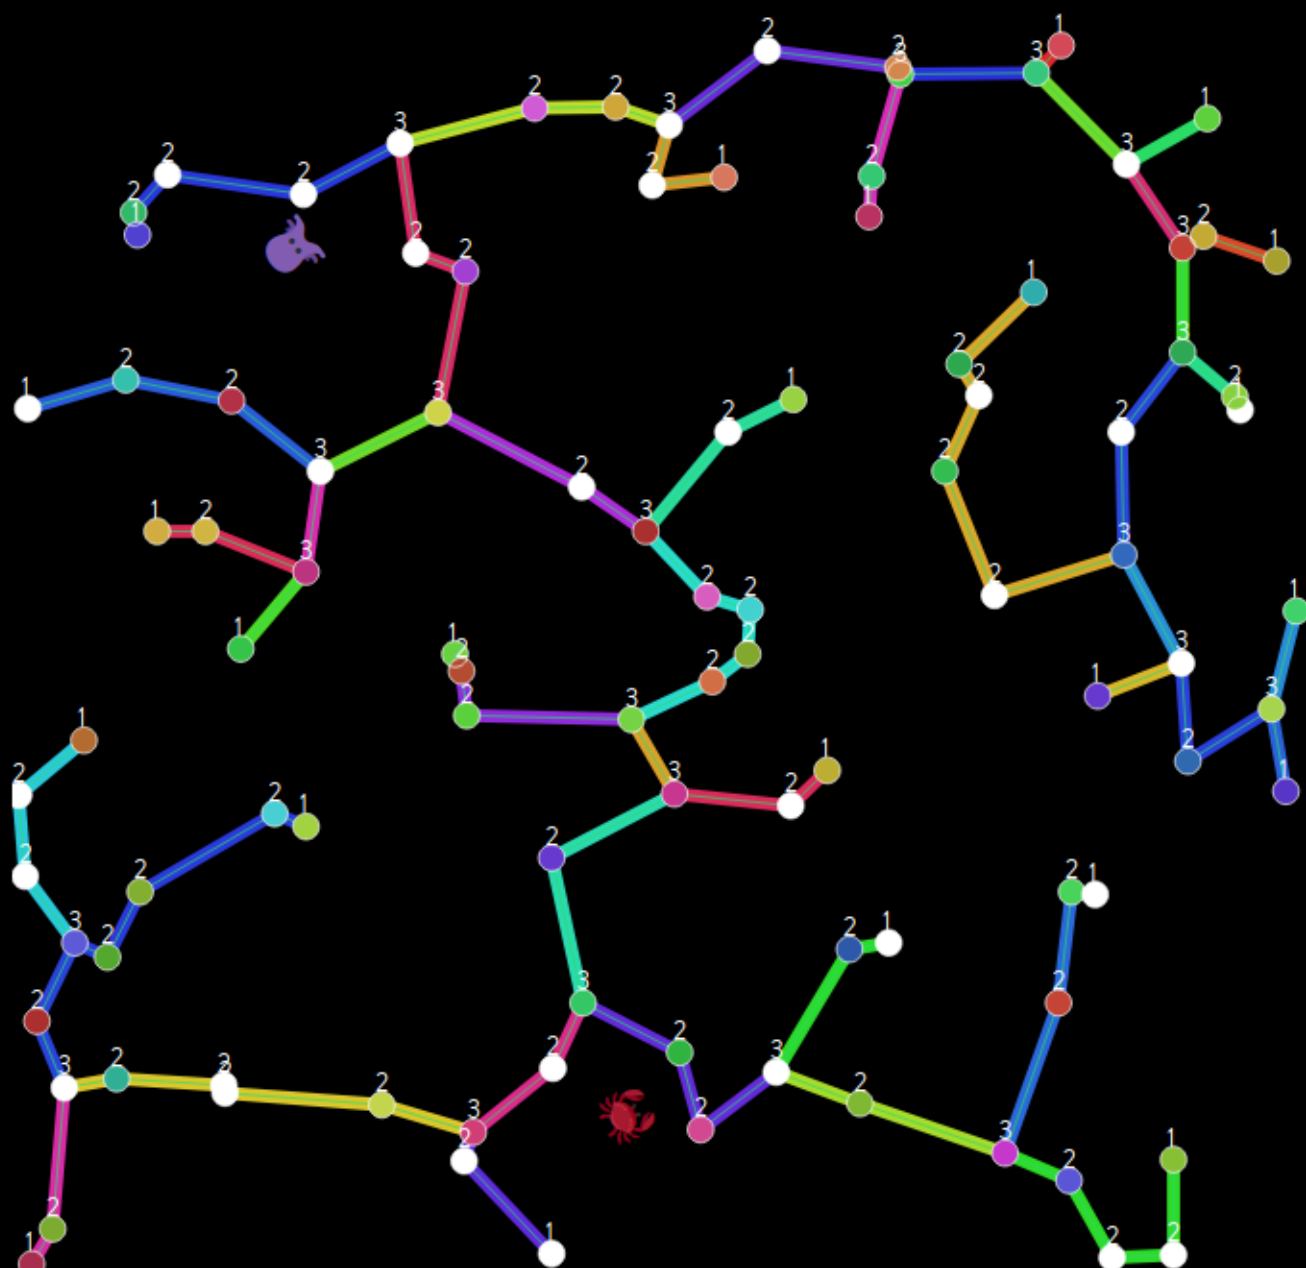

Hello. My friend is lost. Lost in the depths of strange space! But! I
will find them.

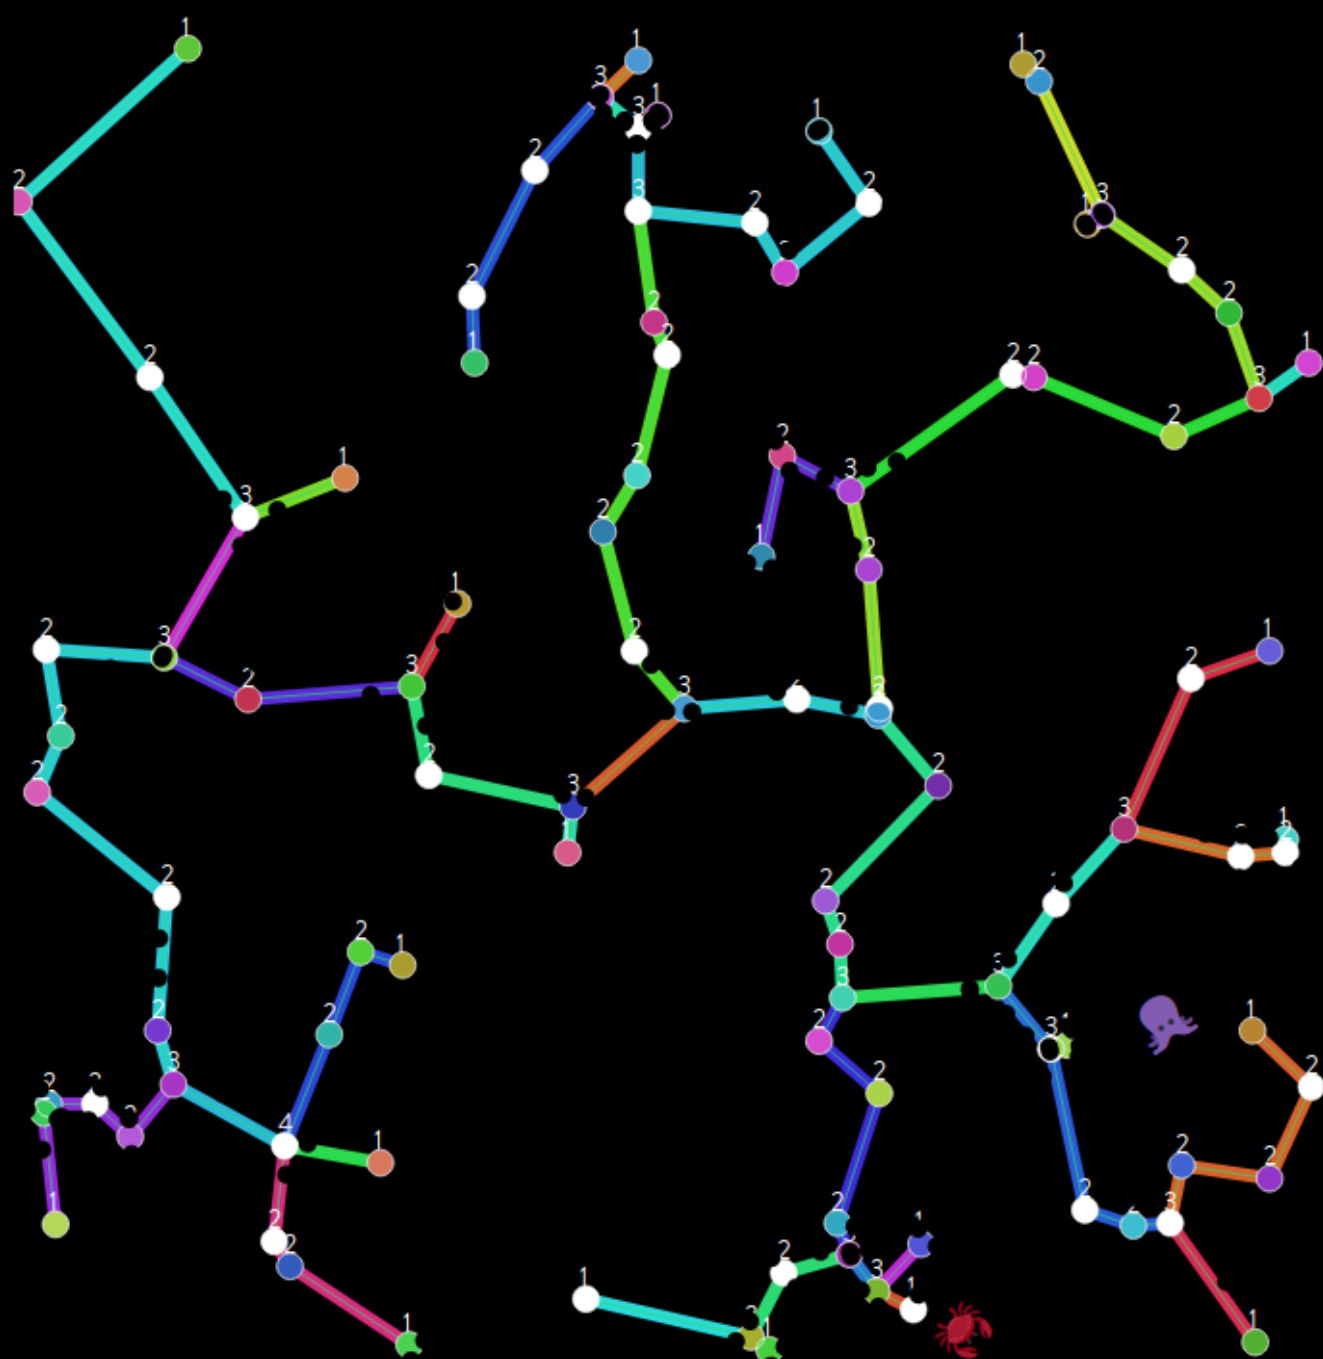

HELLO! ANY FRIENDS OUT HERE?

Maybe I should back up?

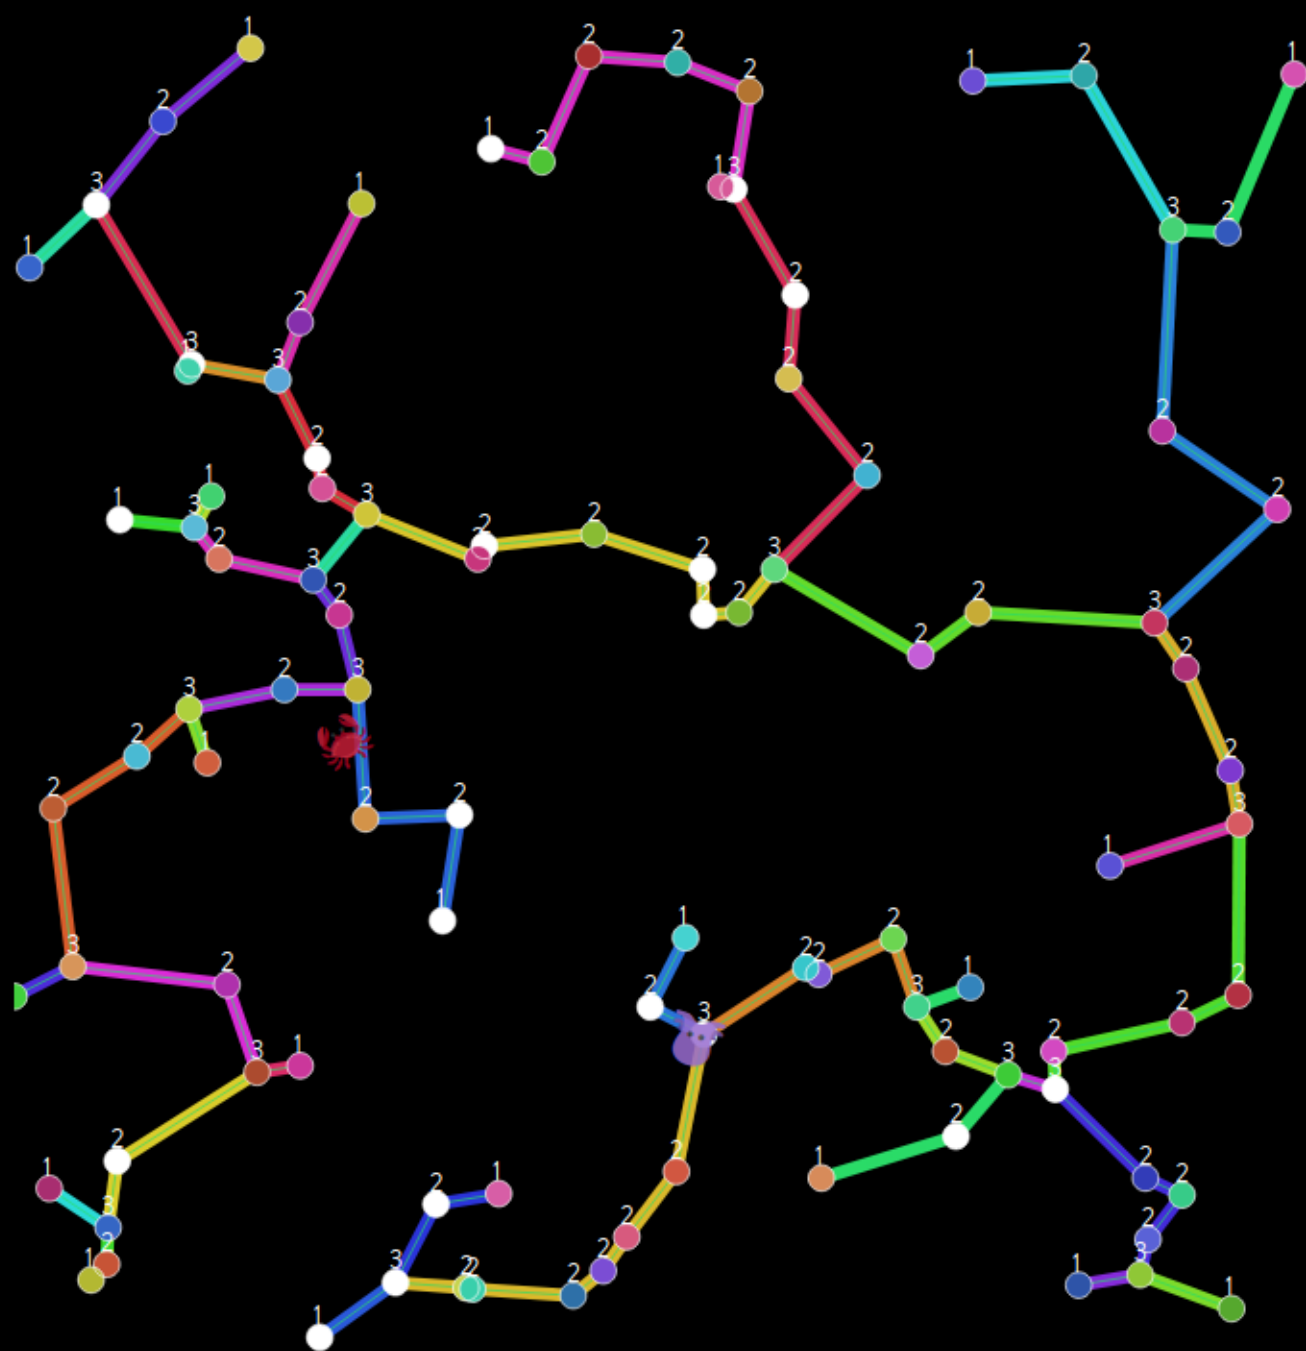

There are a lot of mysterious developments out here.

Was I already here?

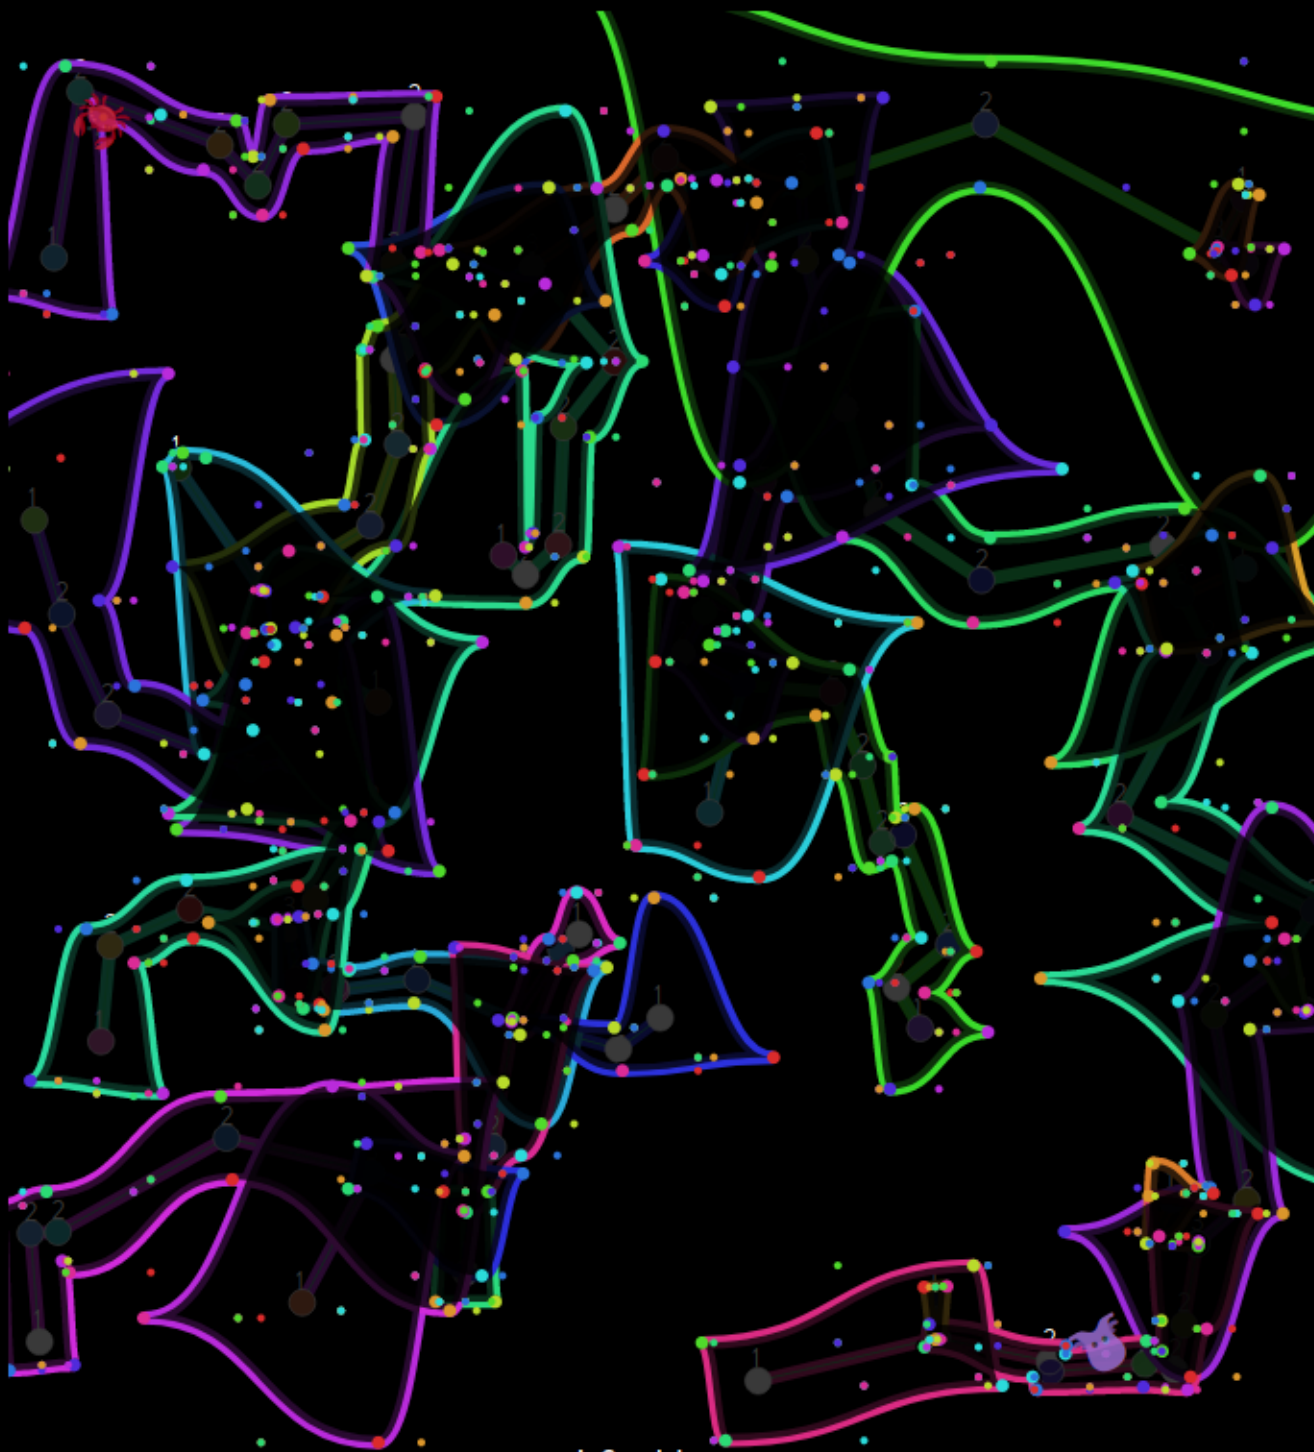

Whoa look at that!

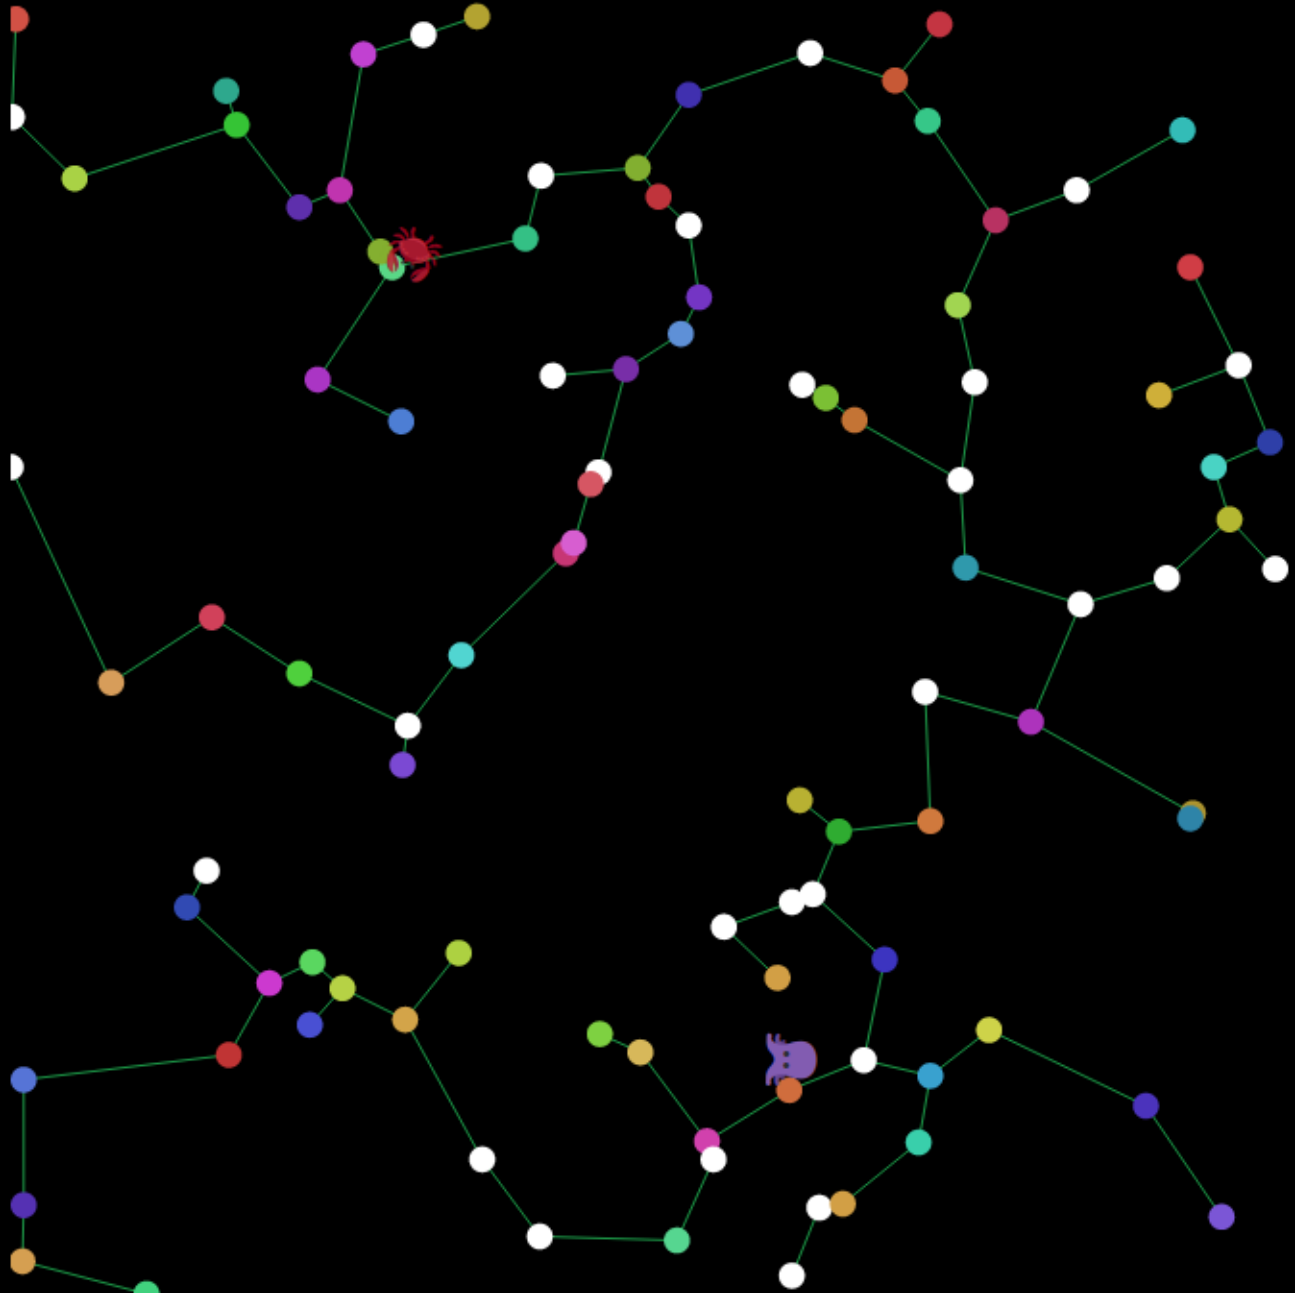

Could they be there?

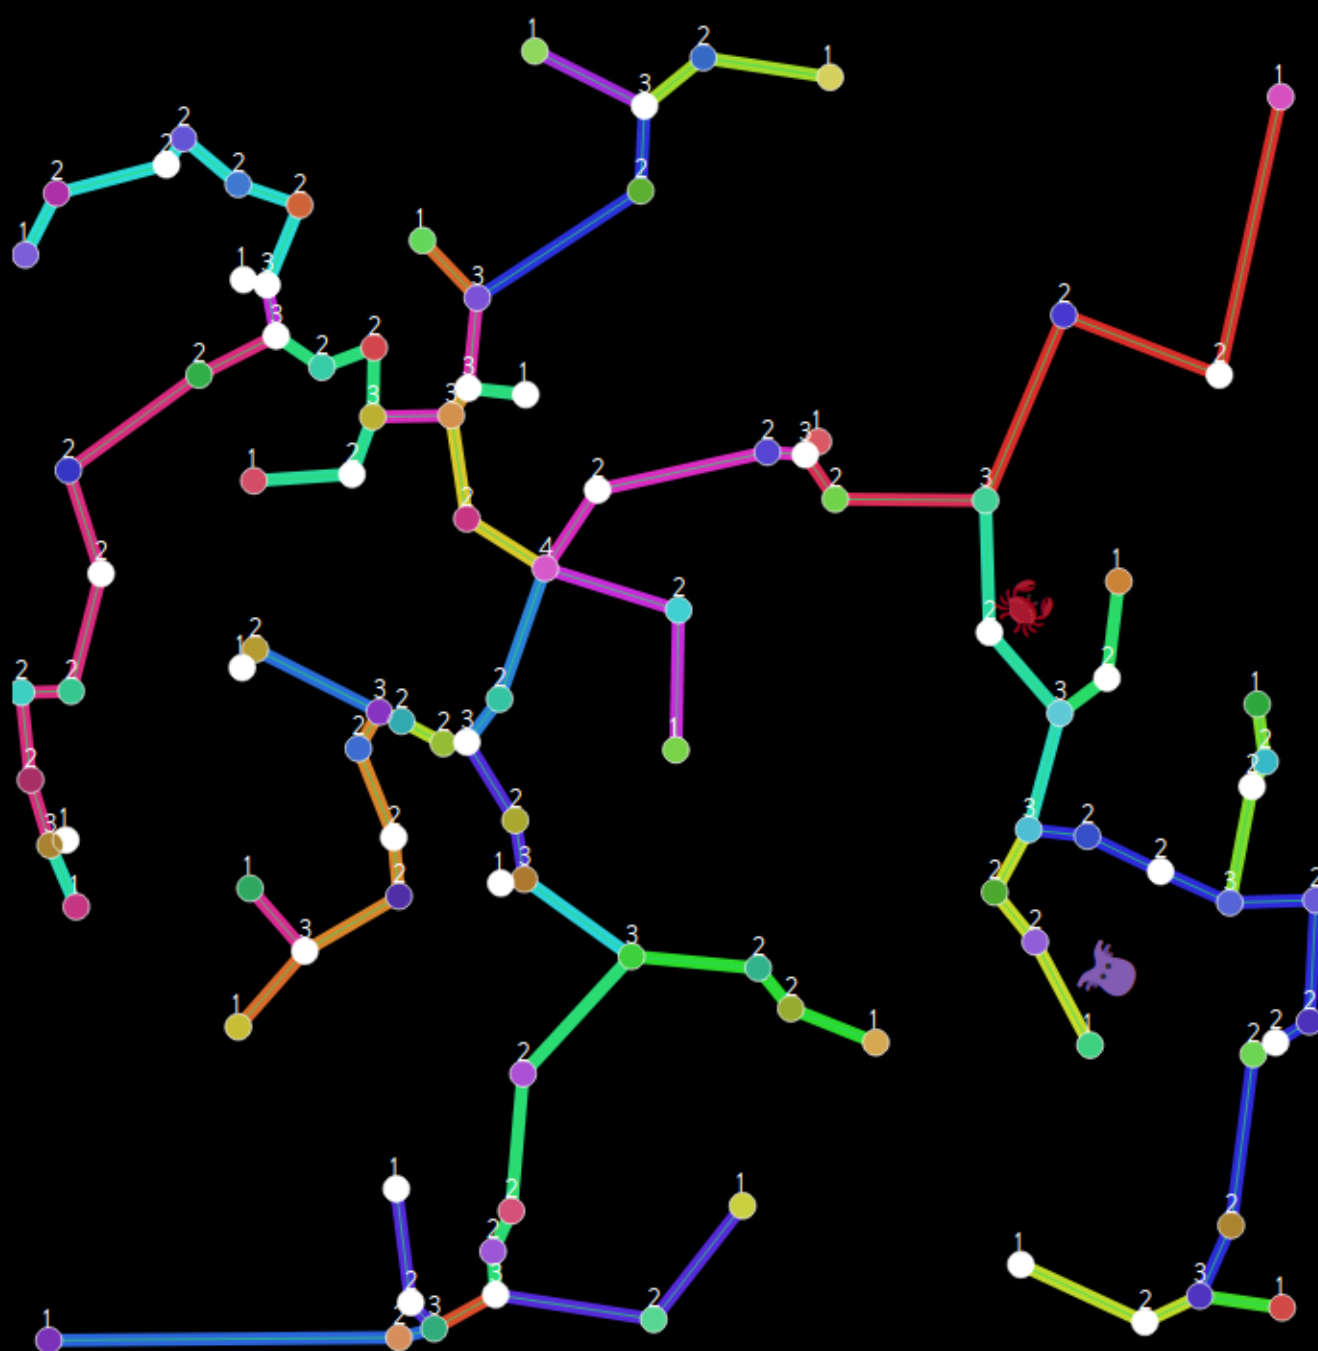

This is kinda fun.

I feel lost.

HELLO! ANY FRIENDS OUT HERE?

Do you see them?

"Aha! There you are!"

"And there you are! Space is a small world."

"Space is not a world."

"If you say so! Well, let's eat a dinner."

Can you read this book and help these friends find each other?
